

CAPABILITIES STATEMENT

COMPANY DATA

Learning Dreams LLC is a diverse and multidisciplinary organization that integrates education, behavioral science, health, wellness, and business. Our team includes educators, psychologists, mental health therapists, nurse practitioners, systems analysts, and leadership and organizational development consultants. With compassion, empathy, and patience, we help individuals and groups get past their hurdles by leveraging assessment data, technology, research-based interventions, and best practice solutions.

Learning Dreams is a change agent organization that provides the community with the necessary resources to develop innovative solutions for all levels of learning. The mission of Learning Dreams is to provide individuals with comprehensive services that address the needs of the whole being. We confer with all relevant stakeholders to identify and develop a plan to address priority needs.
